IMPRIME ET DÉCOUPE !

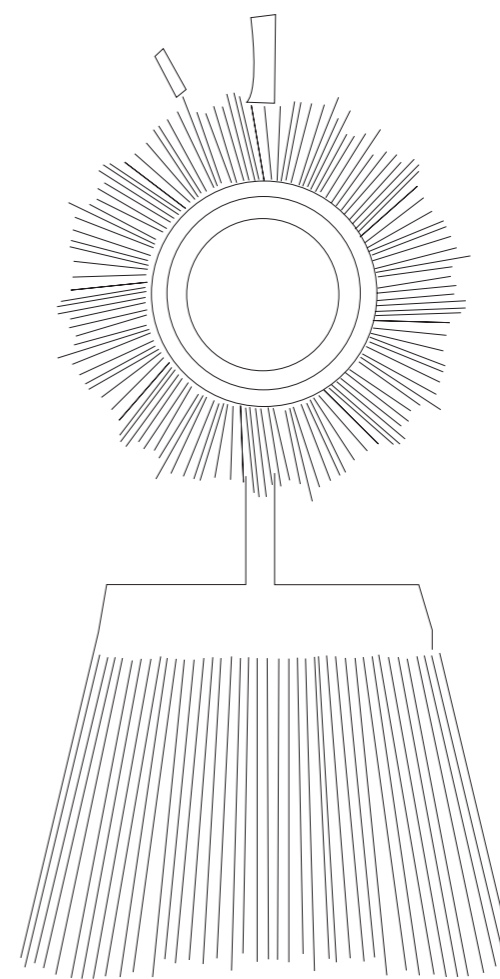

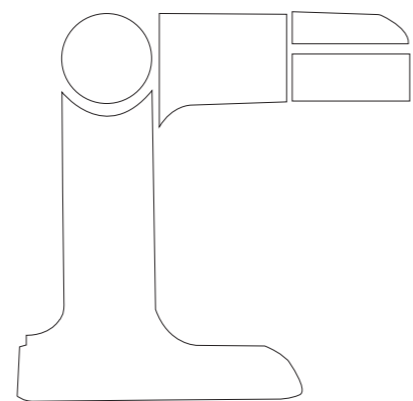

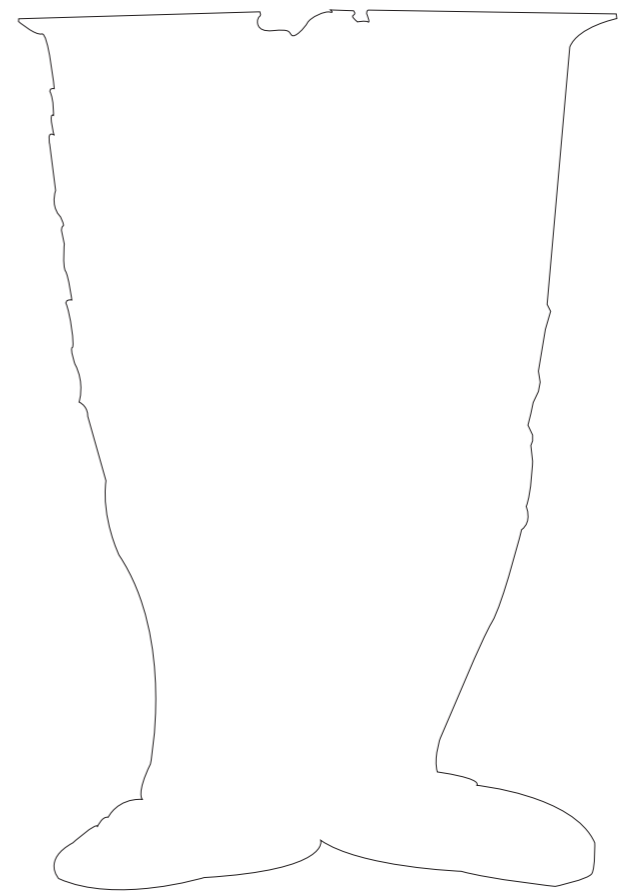

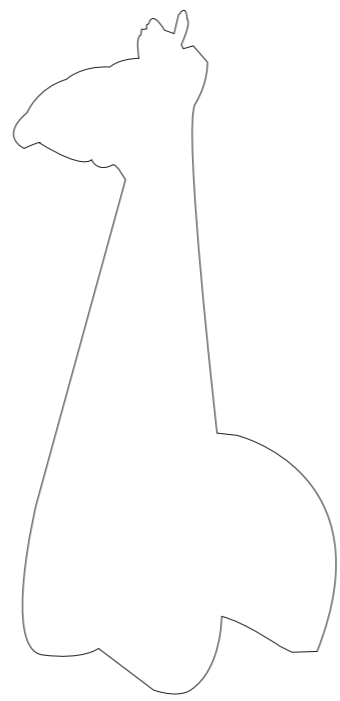

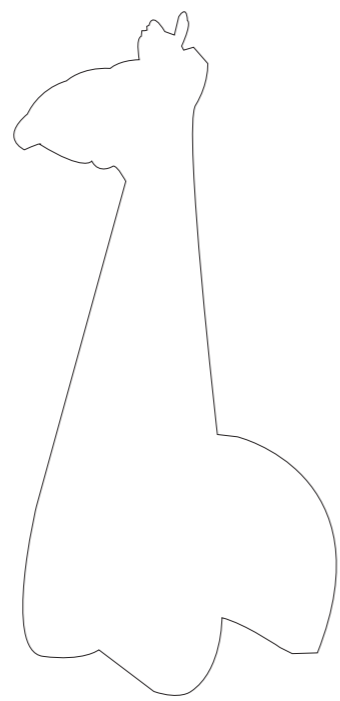

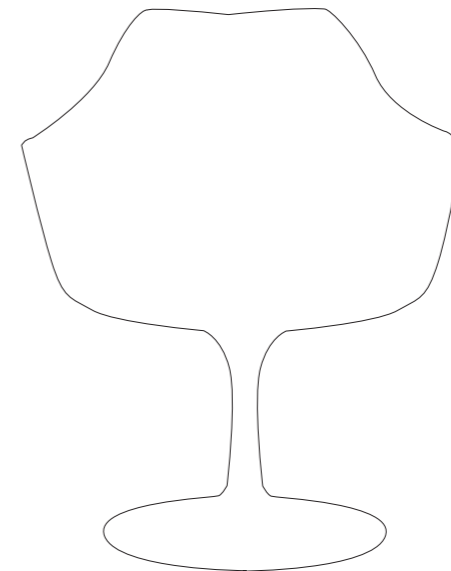

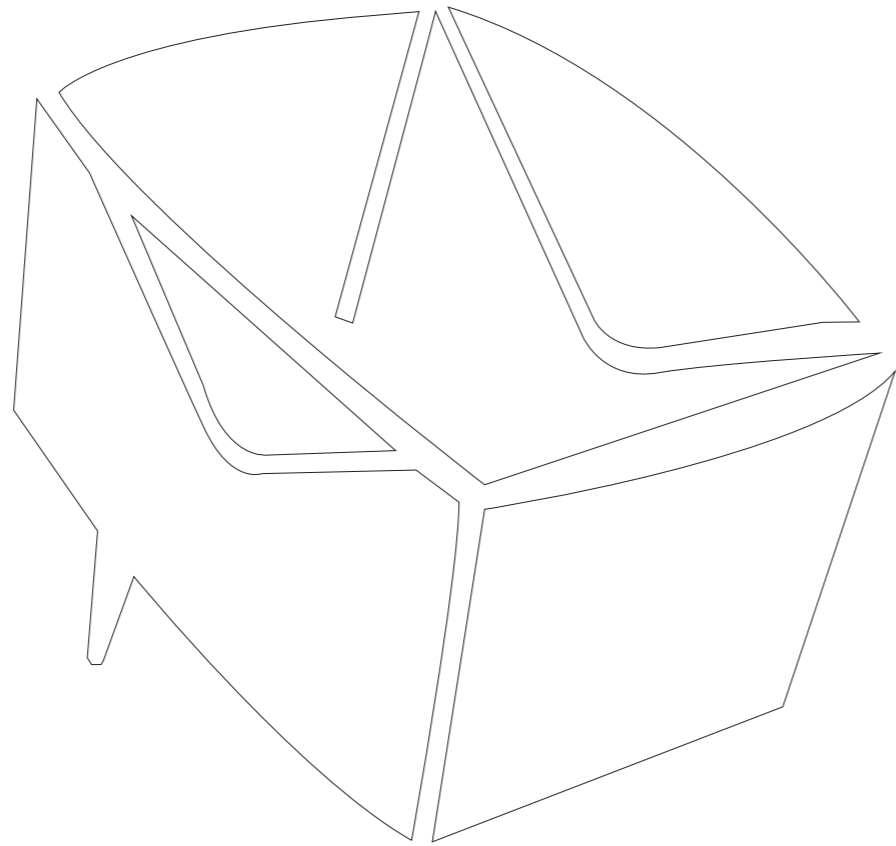

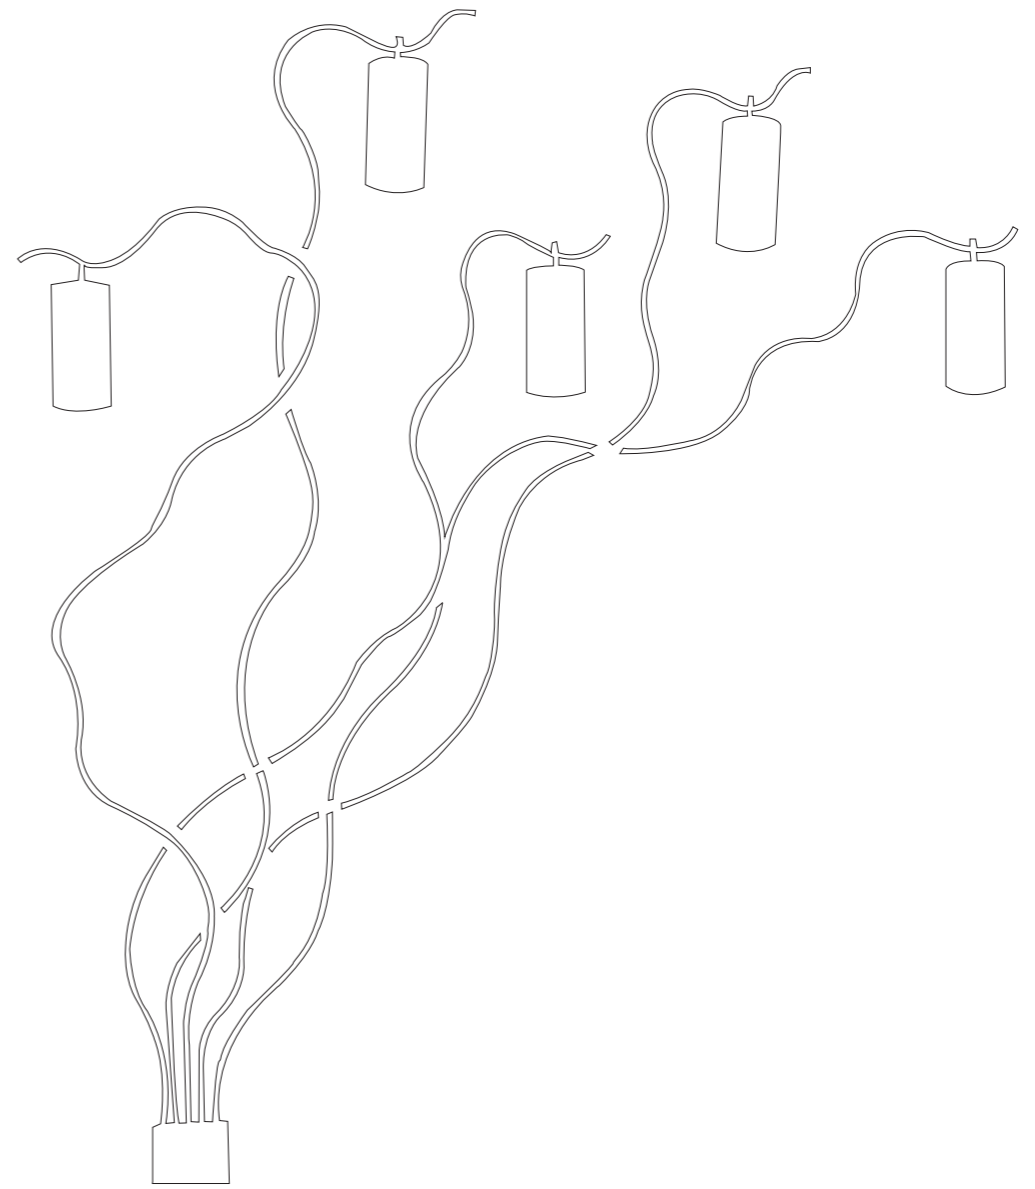

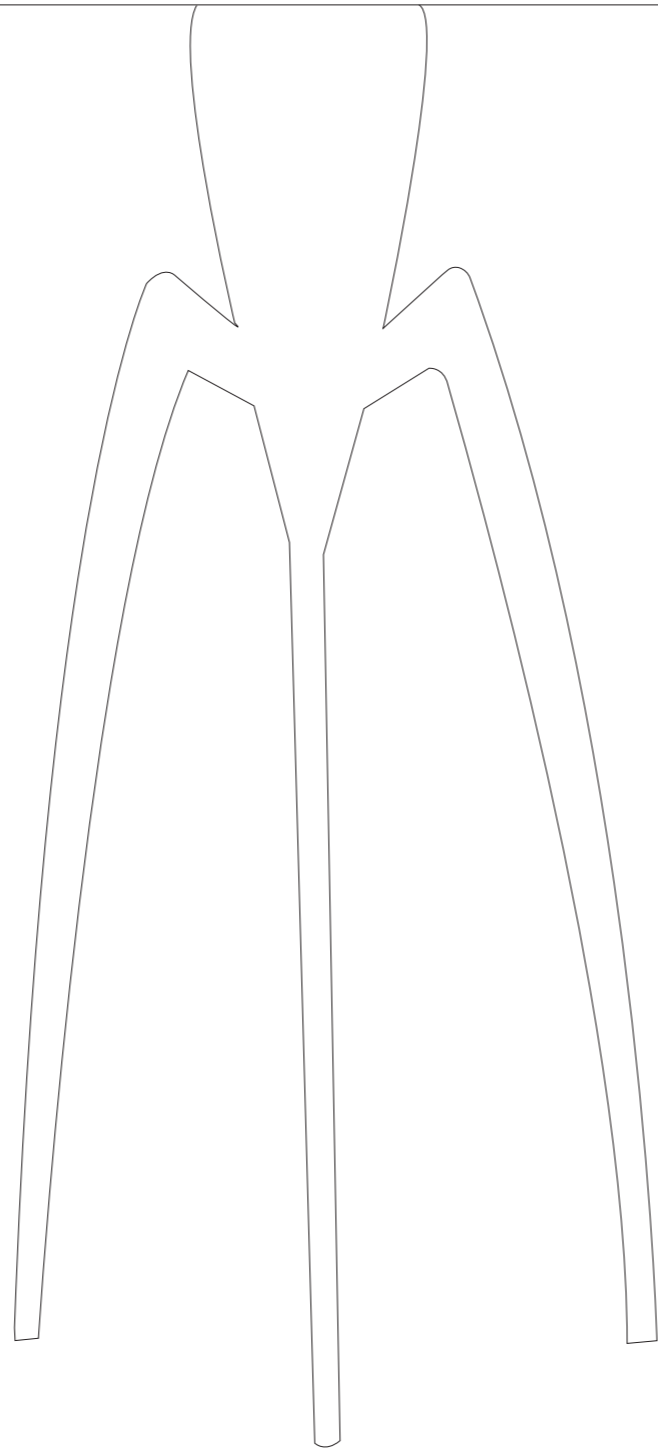

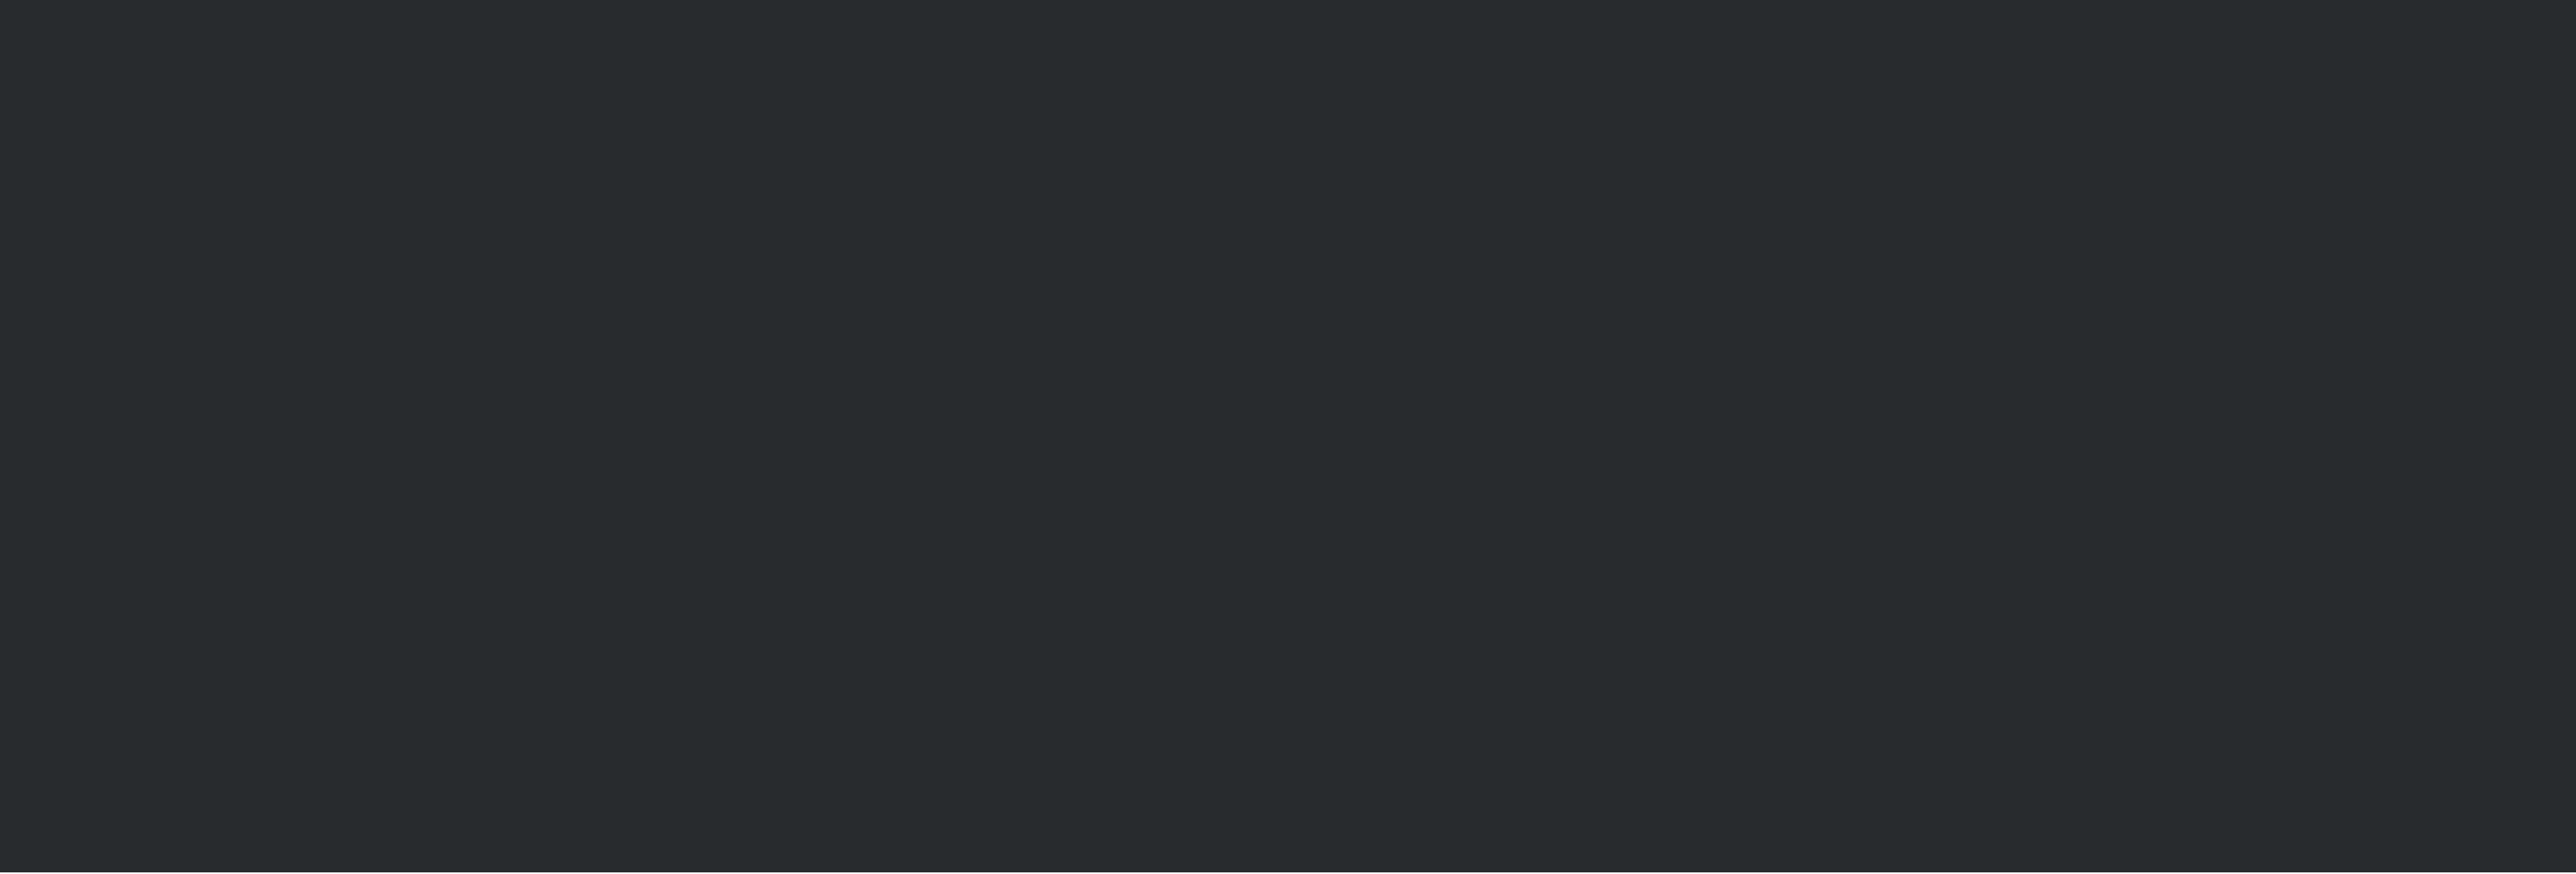

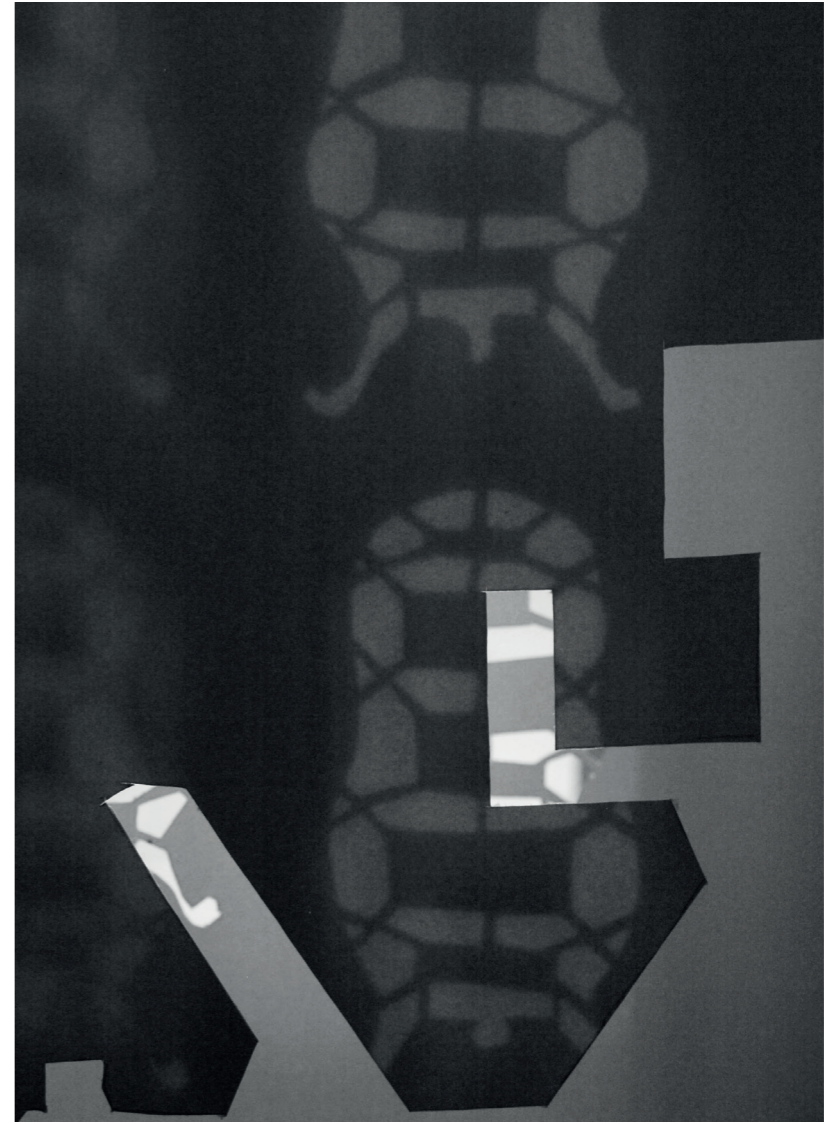

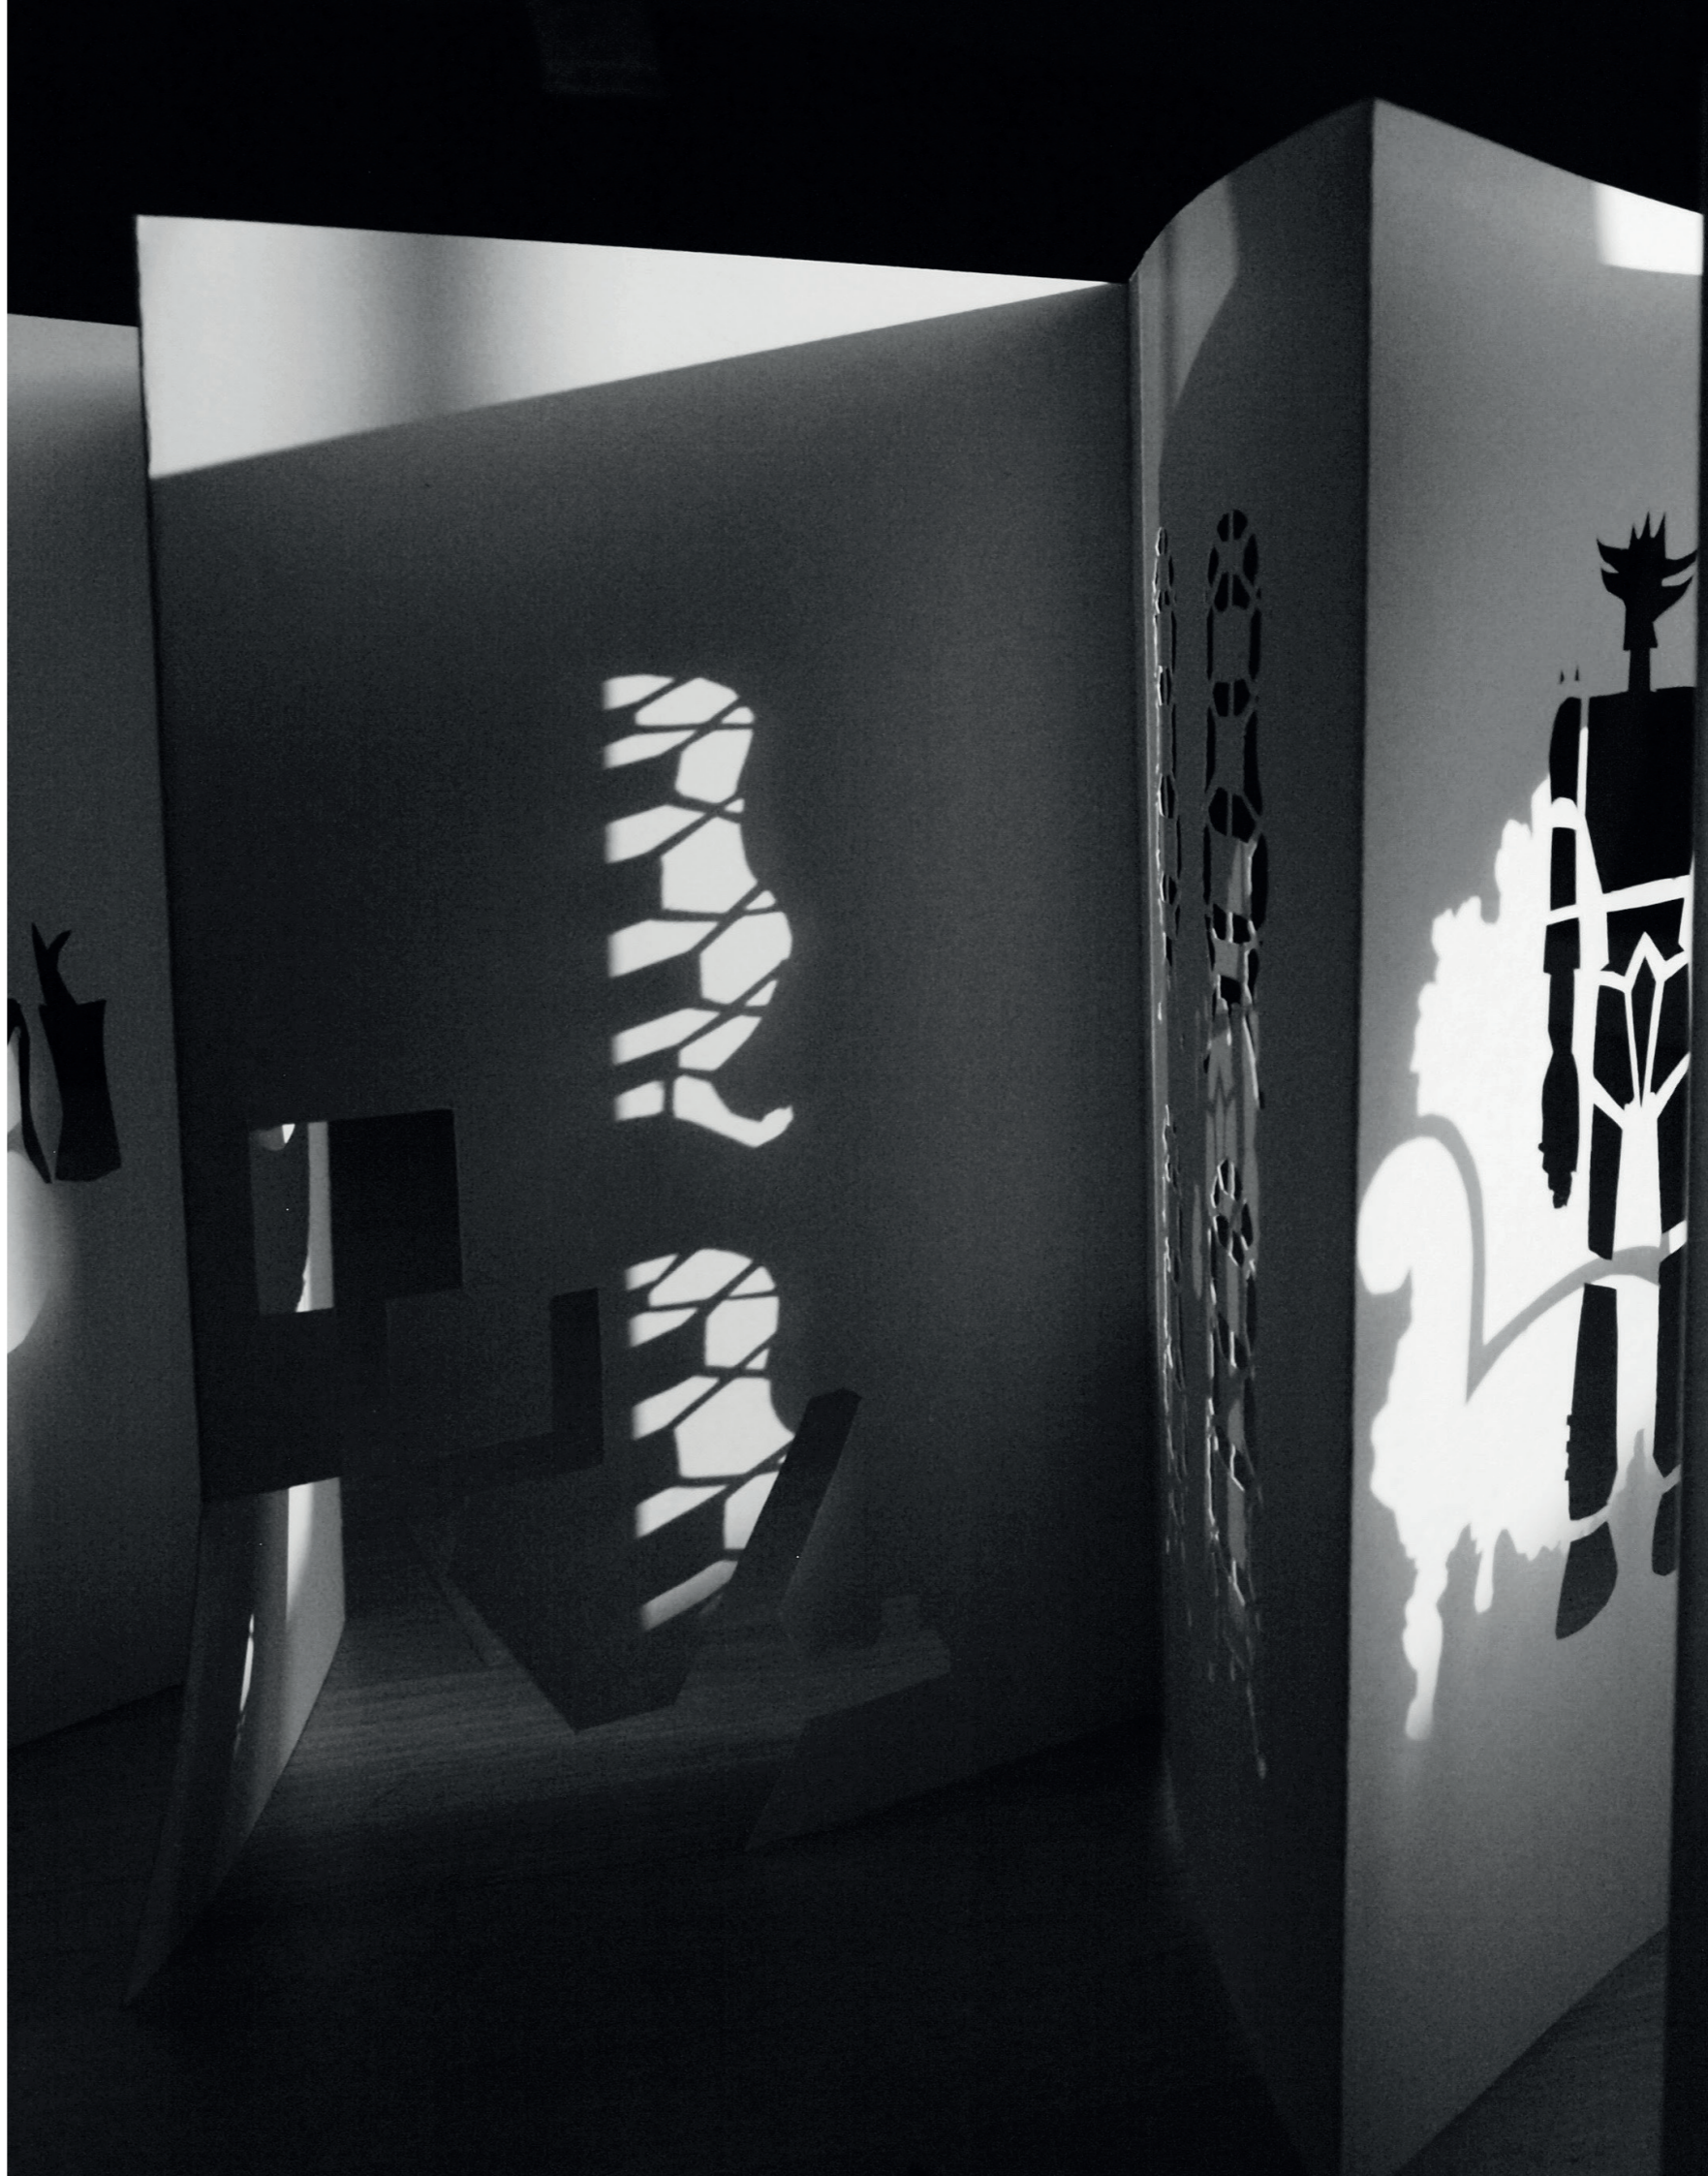

Composé de silhouettes découpées d'objets, «Jeux d'ombres» est un dépliant, un catalogue mettant en avant la richesse esthétique des différentes formes.

Comme un objet décoratif, l'utilisateur laisse le dépliant posé. La lumière vient faire jouer les formes entre elles en les faisant se chevaucher, s'assembler. Cet effet lumineux créé de nouvelles silhouettes mêlant les objets de typologie des plus différentes.
